## Ruislip High Street – Resurface Second Phase

With careful planning and financial commitment, not wishing to cause major disruption in the run up to and during Christmas 2016, we are pleased to have been able to secure the resurfacing of the High Street from Ickenham Road to Bury Street in March.

This essential structural work will make the traffic experience for residents and visitors alike, a far better one and will improve the “look” of that end of the High Street. Your Councillors have been instrumental in ensuring that this work is done, as we have done with the many roads resurfaced in our ward.

## Street surgeries continue across West Ruislip

2017 sees your ward councillors continue with our successful programme of Street Surgeries.

These innovative events give us the opportunity to meet informally with residents and enjoy discussions on a wide range of topics. For example, we have already held a number of these successful events at Thames Drive, Whiteheath Avenue, Glenfield Close and Fairfield Avenue.

By the time this In Touch goes out, we will have started 2017 with an event in The Greenway and Oak Avenue. As ever we look forward to seeing and hearing from as many residents as possible in the coming 12 months.

## Ward Budget funding for local initiatives

Once again it is with great pleasure that your councillors are able to announce our providing funding to a number of local schools and other organisations for specific projects to benefit the community.

Our successful financial stewardship has again enabled us to make funding available for these ward based payments for individual items and projects that we have identified or have been suggested to us.

So far we have been able to assist our schools, youth groups, community projects and many other organisations. Before Christmas, we were very pleased to be able to award a grant to Bishop Winnington Ingram primary school to support the provision of a new games area.

## New Welcome to Ruislip signs secured by local Councillors

We were delighted to be able to ensure Ruislip’s distinctive identity received some recognition with the addition of the new Welcome to Ruislip street signs in strategic locations on the main routes into Ruislip.
